About this Group:

This is a collaborative stroke support group created by Trinity Health Stroke teams at hospitals across the US.

The focus of this group is both education and peer support. Stroke survivors, their family, friends, and caregivers are welcome to attend.

Education will focus on topics that benefit stroke survivor recovery and reducing stroke risk factors. Peer support for survivors and caregivers who want to connect with others who may have experienced similar frustrations about fatigue, depression, anxiety, and apprehension about recovery after having a stroke.

This is an open supportive forum to connect with others, to learn from others, and share what has helped you as a stroke survivor or as a care partner of a stroke survivor. All meetings are held virtually on Zoom. The link can be accessed via the link to the right. To have the link emailed to you contact the Group Moderator(s) by email.
