Our Mission

We, Trinity Health Of New England, serve together in the spirit of the Gospel as a compassionate and transforming healing presence within our communities.

Our Core Values

- Reverence
- Commitment to Those Who are Poor
- Justice
- Stewardship
- Integrity

Patient Population

- 10-9 is nationally recognized as a Center of Excellence for Heart Failure Care by the Joint Commission and American Heart Association. We work closely with the out-patient team to ensure quality care along the health continuum for our patients. Daily collaboration with a multidisciplinary team.

Prior Experience / GNR

- We accept both experienced nurses and GNRs to our unit. Our staff will provide a personalized orientation to all nurses. Our aim is to expand your knowledge and personal growth in your nursing career. All RNs are offered ACLS training approximately 6-9 months after completing orientation

Orientation

- Average length of orientation- experienced nurse 7-8 weeks, GNRs 12 weeks
- Additional training in telemetry strip interpretation during orientation
- We offer all prospective candidates a shadow experience with a member of our team

Good to know!

- Nurse driven diuretic protocol
- 24/7 support from the inpatient CHF team-office is on our unit
- We have student groups on our unit on a regular basis
- New RN/ LPN collaboration
- LVAD training fall 2022
