Team also includes Attendings, Residents, CNAs, LPNs and Unit Secretaries

Every 3<sup>rd</sup> weekend/holiday requirement

Open RN Positions: 24 Hr Night Shift

### Our Mission

We, Trinity Health Of New England, serve together in the spirit of the Gospel as a compassionate and transforming healing presence within our communities.

### Our Core Values

- Reverence
- Commitment to Those Who are Poor
- Justice
- Stewardship
- Integrity

### Patient Population

- Our Maternity unit primarily cares for mothers and babies during their postpartum period
- Our unit fosters a family environment as visitation allows and supports women through compassionate care and education
- All our nurses are trained to postpartum, high risk antepartum, well newborn nursery, and post-op gyn
- St. Francis is a teaching hospital, and our staff work closely with OB Residents

### Prior Experience Suggested

- Obstetric and/or fetal monitoring experience preferred
- Capstone or internship in obstetrics preferred if new graduate

### Orientation

- $\geq 8$  weeks includes didactic, simulations, classes, and unit-based training
- BLS, NRP, NCC Certification in Electronic Fetal Monitoring (within 1 year of hire)

### Good to know!

- Our division has many safety programs in place including Postpartum Hemorrhage, Shoulder Dystocia, Severe Hypertension, etc. with ongoing education and multidisciplinary simulations for all staff
- Maternity might be a good fit for you if you love patient education, can multitask, and prioritize, and have a passion for caring for women and infants!
